

Why MOODLE?

Labby
social network solutions

Onboarding | working and learning remotely

AIM of LMS

A compatible online platform for members, non-members, management, employees, trainers and learners:

- Access tools on top of the LMS (eg HR or project management), **self-paced courses**, live meetings and training programs.
- Learn, increase **knowledge and capabilities**.
- Connect, access **peer learning** from experts and other participants.
- **Collaborate**, contribute to developing, replicating and scaling up best practices.

Who?

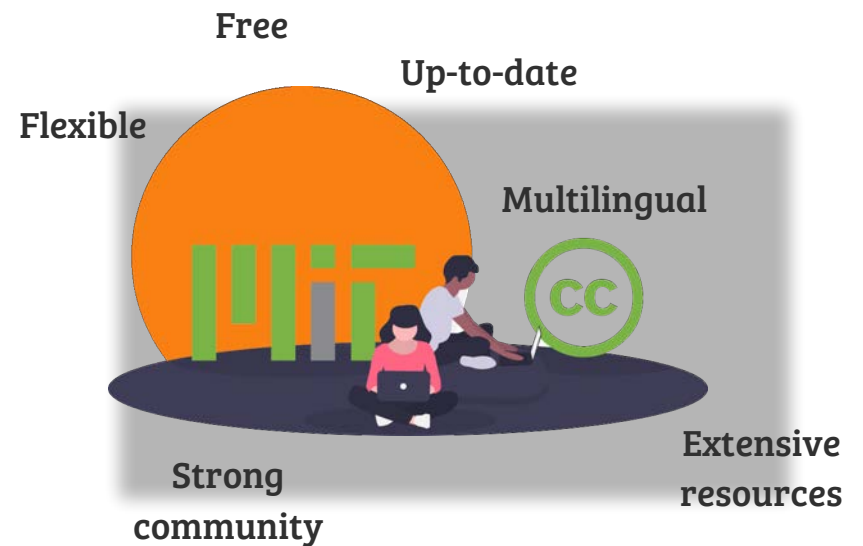

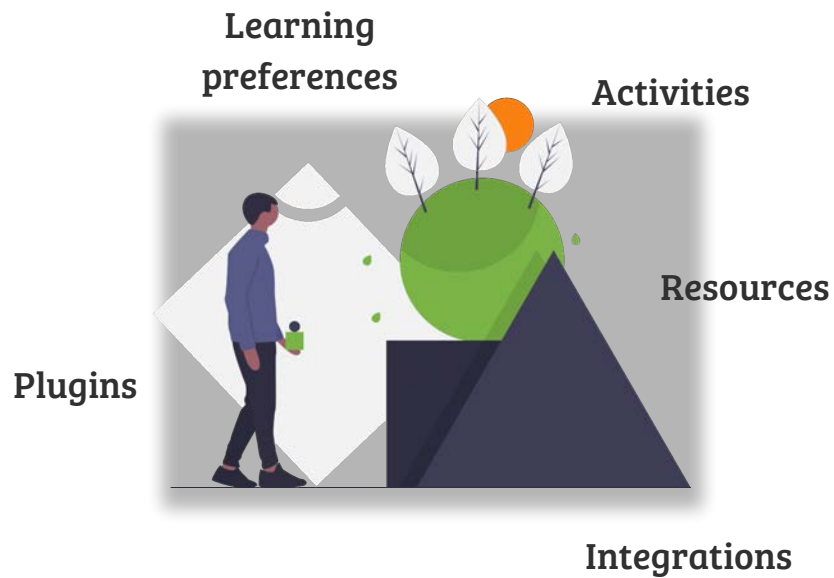

About

Why?

The Moodle logo, featuring a graduation cap icon above the word 'moodle' in a lowercase, orange, sans-serif font.

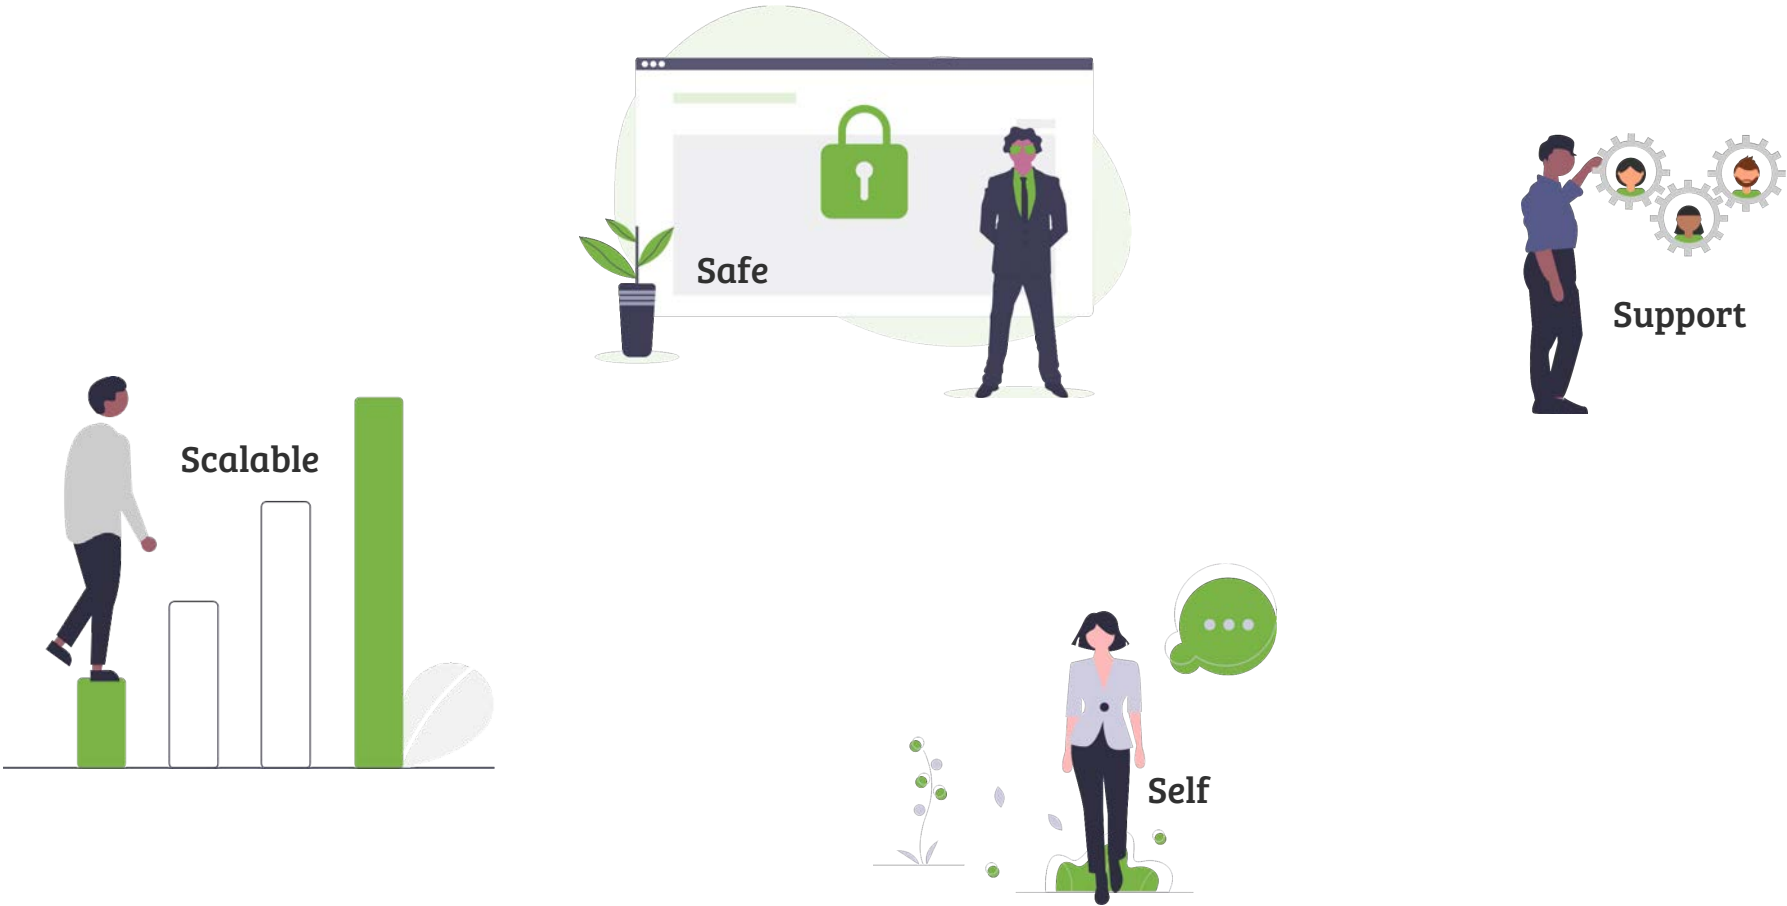

About Moodle

Moodle is an open source initiative of Martin Dougiamas, started in 2002 and has since grown into a proven and trusted learning platform. Worldwide, 206,000 learning platforms with Moodle provide 33,000,000 courses for 250,000,000 users, academic and business.

Why Moodle

A few reasons why customers choose Moodle

Labby

No matter the size of the change, Labby can help. In a way that suits you best. We unburden you completely, including program or project management. Or we put a piece of the puzzle with one or more of our products and services.

As a *platform independent* consultant, Labby helps with the design and implementation of the **Onboarding** process. Supported where necessary with tooling that fits: An Onboarding App, Learning Management System or Open Source solution.

Optimize your learning arrangement. This is possible with our open source solution or with the **learning platform** of one of our suppliers. We provide design, construction and implementation or selection of supplier for your own academy.

You can meet more safely with your own **online meeting platform**. We offer our customers two Dutch "own server" variants and a solution for occasional use.
